Know the cost.
Before the conversation.

Clear prices for physician scheduling and anesthesia Mobile Picklist. Share them with your group and plan the switch together.

50% off your first year.
For every new group, including those using spreadsheets or paper.

Scheduling

$225 CAD
per physician for the first year

$450 CAD / physician / year
from year two

- Schedule building and staff requests
- Shift swaps and the opportunity board
- Workload statistics and fairness reporting
- iCal access and a private document library

Scheduling + Mobile Picklist™

$275 CAD
per physician for the first year

$550 CAD / physician / year
from year two

- Everything in Scheduling
- Review available work from your phone
- Automatic pick-turn notifications
- Choose and record your daily assignment

A supported switch, included.

Staff and scheduling-rule setup, plus **8 hours of online scheduler training**. Mobile Picklist also includes **2 hours of online picklist-manager training**.

Optional hospital IT integration — $2,500 CAD

One-time setup per agreed booking-system interface. Includes hospital IT coordination, configuration, import testing and handover. Manual assignment and case preparation are also available. The first-year discount does not apply to integration. Additional interfaces or substantial custom work are quoted before work begins.

The details, up front.

Billing	Billed annually, payable before implementation. Applicable taxes extra.
Locums	Recurring locums count as staff at the full rate when they usually work at least one day a week during the weeks they work. Occasional locums are not charged.
Extra training	$200 CAD / hour. Standard setup and training above are included.
