

Make the switch.

Save 50% in your first year.

For all new customers, whether moving from another software product, spreadsheets or manual scheduling. Standard setup and initial training included.

Scheduling

\$165^{USD}

per physician for the first year

\$330^{USD} /physician/year from year two

Schedule building, requests, shift swaps, opportunity board, workload statistics, iCal access and a private document library.

Included: Staff and scheduling-rule setup, plus 8 hours of online scheduler training.

Scheduling + Mobile Picklist

\$200^{USD}

per physician for the first year

\$400^{USD} /physician/year from year two

Everything in Scheduling, plus mobile daily-work selection and pick-turn notifications. Manual room entry or optional hospital integration.

Included: Standard setup, 8 hours of scheduler training and 2 hours of online picklist-manager training.

Optional hospital IT integration

\$1,800^{USD} one time

Per agreed booking-system interface. Includes hospital IT coordination, configuration, import testing and handover. Separate from standard setup and the first-year discount. Additional interfaces or substantial custom work are quoted separately before work begins.

Pricing details

Prices are in US dollars (USD). Applicable taxes extra.

Billed annually, payable before implementation. Regular annual pricing applies from year two.

Locums regularly working at least one day per week count as billable staff; occasional locums are free.

Additional training: \$150^{USD}/hour.
